EMMANUEL IHENACHO

FRONTEND ENGINEER / REACT · NEXT.JS · TYPESCRIPT

Plymouth, UK | codewithsleek@gmail.com | Portfolio | GitHub

PROFILE

Product-minded frontend engineer building production web applications across e-commerce, creator platforms and internal business tools. Experienced with React, Next.js, TypeScript, component architecture, state management and API integration. Currently pursuing an MSc in Artificial Intelligence at the University of Plymouth.

EXPERIENCE

Freelance Frontend Engineer | Code with Sleek | 2024–Present

- Deliver responsive web products from Figma and requirements through frontend architecture, API integration, testing, deployment and maintenance.
- Partner with designers, backend developers and clients to simplify complex workflows into accessible, reusable user interfaces.

SELECTED PROJECTS

Trevor Beats | Music marketplace & artist services | 2026 [Case study]

- Led frontend delivery with a designer and backend developer, unifying beat discovery, four licensing tiers, authentication, purchasing, studio booking and promotion services in one responsive platform.
- Built reusable commerce and booking interfaces, integrated APIs and application state, and supported production deployment. Live site.

Revel & Clinch OS | Internal CRM & sales intelligence | 2026 [Projects]

- Designed and built a CRM for prospect discovery, lead assessment, outreach tracking and follow-up workflows using Next.js, TypeScript and Prisma.

UKRAFT | African crafts e-commerce | 2025 [Projects]

- Developed a Next.js storefront connected to a PHP API, covering product discovery, cart, checkout, accounts and order tracking; integrated Paystack and NGN/USD pricing.
- September 2026 desktop PageSpeed audit: 86 performance, 100 best practices, 92 SEO.

Sampees Global Resources | Product catalogue & lead generation | 2024 [Projects]

- Built responsive product discovery and enquiry flows with reusable components, LiveChat and analytics; desktop PageSpeed audit: 93 performance, 100 SEO (Sep 2026).
